PROCEDURES

Venous Interventions

- Venous Insufficiency
- Varicose/Spider Veins
*Sclerotherapy, Foam, Endovenous Laser
 Ablation, Radiofrequency Ablation,
 Ambulatory Phlebectomy, Cosmetic*
- Deep Vein Thrombosis

Arterial Interventions

- Peripheral Artery Disease
Angiography, Angioplasty, Stenting
- Abdominal Aortic Aneurysm
Stent Graft
- Renal and Mesenteric Artery Stenosis
Angioplasty, Stenting
- Splenic Embolization

Gynecological Interventions

- Pelvic Vein Congestion
Ovarian Vein Embolization
- Uterine Fibroids
Uterine Fibroid Embolization

Urological Interventions

- Enlarged Prostate
Prostate Artery Embolization
- Varicocele
Varicocele Embolization
- Nephrostomy Tubes
Placement, Exchange, Removal
- Ureteral Stents
Internalize Nephrostomy Tube
- Access for Stone Removal

Interventional Oncology

- Regional Liver Cancer - Primary,
 Metastatic
*Radioembolization, Chemoembolization,
 Nanoknife*
- Local Tumors - Liver, Lung, Renal, Bone,
 Adrenal, Prostate
*Cryoablation, Radiofrequency, Microwave
 Ablation, Nanoknife*
- Infusion Port
Placement, Removal

Spinal Procedures

- Vertebral Body Fracture
Kyphoplasty, Spine Jack, Vertebroplasty
- Sacral Insufficiency Fracture
Sacral Vertebroplasty
- Epidural Steroid Injection
- Ablation for Facet Pain

Blood Clots

- Chronic Venous Reconstruction
- Stenting for May-Thurner Syndrome
- Catheter-Directed Thrombolysis &
 Thrombectomy
- Inferior Vena Cava (IVC) Filter
Placement, Removal
- Pulmonary Thromboembolism

**Musculoskeletal Intervention and
 Cancer-Related Pain**

- Ablation of Painful and Radiation
 Resistant Bone Tumors
- Pelvic Osteoplasty and Stabilization
- Palliative Neurolysis

Liver Interventions

- Biliary Drainage & Stent Placement
- Cholecystostomy Drain (Gall Bladder)
- Transjugular Intrahepatic Porto-systemic
 Shunt (TIPS)

Peritoneal Drainage

- Paracentesis
- Tunneled Peritoneal Catheter Placement

Pleural Drainage

- Thoracentesis
- Aspira®/PleurX® Tunneled Pleural Catheter

Vascular Access

- Arteriovenous Fistulagram
- Dialysis Access – Catheters
- Tunneled Central Line
- Peripherally Inserted Central Catheter (PICC)
Placement, Removal

Osteoarthritis Treatment

- Geniculate Nerve Ablation
- Geniculate Artery Embolization

Drain Care

- Abscess Drain
Placement, Maintenance
- Lymphocele Drain
Placement, Sclerosing

Other Interventional Procedures

- _____
- Interventional Radiology Consult
