RIA Interventional Radiology Procedures

Comprehensive Vein Care

■ Varicose Veins

- Sclerotherapy – Cosmetic
- Foam Sclerotherapy
- Endovenous Laser Treatment (EVLT)
- Radio Frequency Ablation (RFA)
- Ambulatory Phlebectomy

■ Blood Clots

- Chronic Venous Reconstruction
- Stenting for May-Thurner Syndrome
- Catheter-Directed Thrombolysis & Thrombectomy
- Inferior Vena Cava (IVC) Filter Placement & Removal
- Pulmonary Thromboembolism

■ Gonadal Vein Embolization

- Varicocele Embolization
- Pelvic Venous Congestion Syndrome Embolization

Interventional Oncology

■ Regional Therapies – Liver

- Yttrium-90 Radioembolization
- Chemoembolization
 - Transarterial Chemoembolization (TACE)

■ Local – Tumor Ablation

- Cryoablation
- Irreversible Electroporation (IRE)
- Microwave Ablation
- Radiofrequency Ablation (RFA)

■ Infusion Port Placement & Removal

■ Splenic Embolization

■ Musculoskeletal Intervention and Cancer-Related Pain

- Ablation of Painful and Radiation Resistant Bone Tumors
- Pelvic Osteoplasty and Stabilization
- Palliative Neurolysis

Women's Interventional Procedures

■ Uterine Fibroid Embolization (UFE)

■ Gonadal Vein Embolization

■ Post-Partum Hemorrhage Embolization

Men's Interventional Procedures

■ Prostate Artery Embolization

■ Varicocele Embolization

Vertebral Augmentations

■ SpineJack Fracture Reduction

■ Balloon Kyphoplasty

■ Sacral Augmentation

■ Spinal Pain Management

Arterial Interventions

■ Peripheral Artery Disease (PAD) Treatment

- Angioplasty
- Stenting

■ Abdominal Aortic Stent Graft

■ Renal & Mesenteric Artery Angioplasty and Stenting

Acute Care – 24/7/365

■ Acute Bleeding

■ Massive Pulmonary Embolism

■ Organic Obstruction With Sepsis

■ Traumatic Injuries

General Interventional Radiology Procedures

■ Abscess and Fluid Drainage

- Percutaneous Abscess Drainage – Computer Tomography (CT) or Ultrasound-Guided

■ Adrenal Vein Sampling

■ Diagnostic Vascular Imaging

- Ultrasound Studies
 - Ankle Brachial Index (ABI)*
 - Arterial Doppler Ultrasound*
 - Venous Insufficiency Ultrasound*
 - Deep Venous Thrombosis (DVT) Ultrasound*
- CT Studies
 - CT Angiogram
 - CT Venogram
- Other Diagnostic Studies
 - Angiogram
 - Venogram

■ Kidney & Urological Interventions

- Nephrostomy Tubes
- Ureteral Stents

■ Liver Interventions

- Biliary Drainage & Stent Placement
- Cholecystostomy Drain (Gall Bladder)
- Transjugular Intrahepatic Porto-systemic Shunt (TIPS)

■ Peritoneal Drainage

- Paracentesis
- Tunneled Peritoneal Catheter Placement

■ Pleural Drainage

- Thoracentesis
- Aspira®/PleurX® Tunneled Chest Catheter

■ Vascular Access

- Infusion Port Placement & Removal
- Tunneled Power Line
- Peripherally Inserted Central Catheter (PICC)

■ Dialysis Interventions

- Dialysis Access – Catheters
- Fistulagram
- Percutaneous Fistula Placement

Neurological Interventions

Neuro-interventional surgery is a separate division of our parent organization. They treat brain aneurysms, arteriovenous and spinal malformations, tumors, carotid stenosis, ENT disorders and stroke.

Providers may contact the Neuro 24/7/365 Hotline at 866.862.9742.

The Patient & Family Line is 720.493.3345.
